75) Professional astronomers investigate not only stars but everything to do with space – from the meteors and the planets of the Solar System to distant galaxies billions of light years away. Astronomy makes a rewarding hobby too, and many amateur stargazers enjoy observing the night sky with backyard telescopes or binoculars. ---- This is because light takes such a long time to reach us from distant objects in space. We see the Moon as it was one and a quarter seconds ago and the stars as they were hundreds of years ago.

- A) Whenever astronomers observe the sky, they are looking back in time.
- B) Many ancient cultures followed the Sun and stars in order to keep track of the time of year.
- C) Astronomers divide the whole sky into 88 segments, each one named after the constellation within it.
- D) Today, space telescopes such as the Hubble give us breathtaking views of distant objects in space.
- E) People have been looking up at the night sky for thousands of year.
